

Part One (b): NON-PREGNANT ADULT WOMAN (over 18)

This is to help decide whether any female children are at risk of FGM, whether there are other children in the family for whom a risk assessment may be required or whether the woman herself is at risk of further harm in relation to her FGM.

Date: _____ Completed by: _____
 Initial/On-going Assessment

Indicator	Yes	No	Details
CONSIDER RISK			
Woman already has daughters who have undergone FGM – who are over 18 years of age			
Husband/partner comes from a community known to practice FGM			
Grandmother (maternal or paternal) is influential in family or female family elder is involved in care of children			
Woman and family have limited integration in UK community			
Woman's husband/partner/other family member may be very dominant in the family and have not been present during consultations with the woman			
Woman/family have limited/ no understanding of harm of FGM or UK law			
Woman's nieces (by sibling or in-laws) have undergone FGM Please note:- if they are under 18 years you have a professional duty of care to refer to social care			
Woman has failed to attend follow-up appointment with an FGM clinic/FGM related appointment			
Family are already known to social services – if known, and you have identified FGM within a family, you must share this information with social services			
SIGNIFICANT OR IMMEDIATE RISK			
Woman/family believe FGM is integral to cultural or religious identity			
Woman already has daughters who have undergone FGM – who are under 18 years of age			
Woman is considered to be a vulnerable adult and therefore issues of mental capacity and consent should be triggered if she is found to have FGM			

Please remember: any child under 18 who has undergone FGM should be referred to social services.

ACTION

Ask more questions – if one indicator leads to a potential area of concern, continue the discussion in this area.

Consider risk – if one or more indicators are identified, you need to consider what action to take. If unsure whether the level of risk requires referral at this point, discuss with your named/ designated safeguarding lead.

Significant or Immediate risk – if you identify one or more serious or immediate risk, or the other risks are, by your judgement, sufficient to be considered serious, you should look to refer to Social Services/CAIT team/ Police/MASH, in accordance with your local safeguarding procedures.

If the risk of harm is imminent, emergency measures may be required and any action taken must reflect the required urgency.

In all cases:-

- Share information of any identified risk with the patient's GP
- Document in notes
- Discuss the health complications of FGM and the law in the UK
