

Cohorts 2-5 general practice are required to have a practice specific process in place to support patients aged 6 years up to and including 25 years who have received national MMR call and recall reminders, the process should include checking the vaccination status for valid vaccinations (e.g. given at the correct age and at the correct intervals) and booking an appointment for vaccination if clinically appropriate. (GP campaign 23-24)

# National MMR targeted catch up plan November 2023-March 2024
