

**** Supporting Your DSP Toolkit Submission ****

From your Facilitators and Training Team at NEL ICB throughout 2024 we will be focusing each month on a topic relevant to you in Primary Care.

We will be running bespoke workshops on the monthly focus from the GPIT Training Team and individual practice support from your Local Area Facilitators.

The monthly focus for May is:

Data Security and Protection Toolkit (DSP Toolkit)

To support you with this year's DSP Toolkit we have presentations from the ICB Data Protection Officer to advise and guide you through the processes you will need to complete for your submission by 30th June 2024.

As in previous years you will be supported with all **mandatory** assertions and where relevant be supplied with the ICB evidence required for the toolkit.

GP IT Training Team Support

To support you with this the training team will be running a series of workshops throughout May – To register for either session on EventBrite please click on the link corresponding to each event below:

DSPT Workshop Afternoon Session
Thursday, 9th May 2024 2.00 to 3.00pm
Click here to book this session

OR

DSPT Workshop Morning Session
Tuesday, 21st May 2024 11.00am to 12.00pm
Click here to book this session

You can book on any of the above sessions that are convenient to you and your relevant staff members

GP IT Local Facilitator Support

If you are unable to attend the workshops your Local Area Facilitator can provide the same support direct with your practice at a time convenient to you.
