Improving Hydration for People Living in Care Homes

Learn from expert speakers about critical topics, including:

- Spotting and preventing Acute Kidney Injury
- Hydration and dehydration: what you need to know
- Hydration and catheter care
- Benefits of good hydration for skin care and wound healing

This event is CPD accredited

Tuesday 17 September 2024

1:30 PM - 3:30 PM

Online via MS Teams

Who should attend:

- Care Home staff
- Doctors, Nurses, Dietitians, and Pharmacists
- Physiotherapists and Occupational Therapists
- Any other health and care staff who support people living in care settings

Why attend?

- Improve your understanding of the impact of hydration on health and disease.
- Learn practical approaches to assessing and addressing hydration needs.
- Implement evidence-based practices to improve hydration management for your residents.
