Enhance webinar 6

[Webinar 6: Developing your integrated neighbourhood teams – an exciting offer!](#)

Tuesday 6th May 1 – 2pm

Your Neighbourhood, Your Future: Be Part of the Conversation

For more information visit the [NEL Health Equity Academy Enhance](#) page

Calling North East London NHS, VCFSE and local authorities

Don't miss this exciting opportunity to secure bespoke, tailored support for the development of your integrated neighbourhood team!

Join us for the sixth and final NEL Enhance webinar as we wrap up the series and look ahead to the next phase of the programme.

At this session, you will hear about the exciting offer, including why you should apply, what the programme will involve, and the process and criteria for expressing an interest.

This opportunity is available to both established neighbourhood teams and those that are still in the process of forming. We encourage a multi-disciplinary, multi-organisational approach, with applications welcomed from wherever you are in the system: local authority, VCFSE or NHS.

We know that collaboration is at the heart of building stronger, healthier communities. The workforce is central to this: working together, learning together.
