

FeNO Planning

Currently in TH only available for 16yr and over in Hub clinic

For children with uncertainty about diagnosis please refer to general Paediatrics A+R

Some Practices may buy their own machines;

[Bedfont® NObreath® FeNO Monitor](#), consumables not too pricey, can not see anything about children

Also consider;

<https://www.niox.com/en/>

The Hubs team suggest getting the reps to present as some user differences which might affect choice.

Also consider rental options.

Large study outcome awaited for impact on management;
