

HYPOS AT HOME

AIM:

- ✓ This short topic provides essential training to guide all health and social care staff on how to safely manage hypos in an **outpatient, community or care setting**.
- ✓ Depending on selected CDEP levels, the topic will focus on identifying which people are at **risk**, recognising the **symptoms**, treating the **different levels**, safely **managing the process** in common scenarios, **glucose targets** for different types of diabetes, and identifying and helping to prevent **recurrent hypos**.

DURATION:

-  The topic will take roughly **15–30 minutes to complete**.

The completed topic will generate a :

- **certificate**, and
- **reflection form** for *revalidation* and *appraisals*
