

To all GP Colleagues,

### **Barking Community Hospital – Upgrade of X-Ray service now complete**

We are pleased to advise our new and improved X-Ray services at Barking Community Hospital will re-open for patients on **Friday, 30 January 2026**.

Patients will benefit from a newly refurbished X-Ray area and will notice new and improved services.

This investment by BHRUT in updating the X-ray equipment to the latest Digital Technology, ensures the future proofing of our x-ray services, and brings significant improvements to diagnostic image quality and patient experience.

Please ensure that requests for x-ray examinations are submitted through the mailbox:

[bhrut.gpxrayrequests1@nhs.net](mailto:bhrut.gpxrayrequests1@nhs.net)

**Chest x-rays and suspected fractures** do not need an appointment. These scans are available as a walk-in service. Patients should bring their x-ray request form with them when accessing our x-ray services at BHRUT sites.

#### **Monday to Friday**

- Fanshawe Diagnostic (Halbutt Street, Dagenham) 08.30am – 1.00pm, and 2.00pm – 5.00pm
- Barking Community Hospital (Upney Lane) 8.30am – 1.00pm, and 2.00pm - 6.30pm
- Harold Wood Polyclinic (Gubbins Lane) 8.30am – 12.30pm, and 1.30pm - 6.30pm
- Queen's Hospital (Rom Valley Way) – 10.00am – 12.30pm, and 2.00pm - 6pm
- King George Hospital (Barley Lane) – 10.00am – 12.30pm, and 2.00pm - 6pm

In order to support the Trust in delivering optimal care, please advise patients to attend either Queen's Hospital or King George Hospital with suspected fractures relating to:

- Hip/Pelvis
- Skull
- Spines

To ensure the best possible patient experience, please verify that all parts of the request form are adequately completed.

Thank you for your understanding and continued partnership whilst we develop our community services.  
**Radiology Department, BHRUT**
