

Mastering Heart Failure Treatment and Medication in Primary Care

Educational Webinar

South London
Cardiac Operational Delivery Network

North London
Cardiac Operational Delivery Network

Join us for an educational webinar for primary care and community-based clinicians.

Featuring expert consultant cardiologist guest speakers, the webinar will explore two case studies to illustrate 'how to' steps to support Heart Failure management in primary care.

SESSION OVERVIEW

- Context: updated NICE HF guideline and QOF indicators
- Knowledge recap: HF medications and the role of primary care
- Case study 1: initiation and optimisation of 4 pillar therapy for HFrEF
- Case study 2: management of diuretics for HF
- Q&A
